SAGE ACCPAC SAGE PRO

The Sage Software Usual Suspects Promotion

Refer a friend and earn \$500 for each "Suspect"!

Think of all your business colleagues and professional friends. Which of them would be perfect candidates for Sage Accpac ERP or Sage Pro ERP products? If they crave total control over their accounting and business operations, just like you do, they're likely to benefit from our powerful Sage Accpac and Sage Pro business management solutions.

That's information you can profit from. For a limited time, each friend you refer who pans out as a hot lead will earn you \$500 in the **Sage Software Usual Suspects Promotion**.

You can earn a \$500 credit for every qualifying name and contact address you provide*. The credits are redeemable for Sage Accpac or Sage Pro products, or services and consultation fees, direct from your Sage Software business partner.

* Lead qualification and subsequent award of credit prizes is based on viability of contact information (valid phone numbers and addresses), as well as a proprietary Sage Software rating system for establishment of suitability for Sage Accpac and Sage Pro. Prospects already in our database do not qualify. Offer valid until September 29, 2006, and is limited to the first 300 award-winning respondents who submit at least one valid lead. Each winning respondent can qualify for multiple \$500 credit awards.

The "Usual Suspects" are really easy to point out: visit **(web address)** and just fill in a few easy blanks and submit the form. Or, you can use the attached reply card: scribble down the contact info and mail it in. It'll be our little secret. Once we check out your tips, you'll hear from us within a few weeks with the results of our investigation. Submit one lead or dozens; every person you submit increases your potential to rake in the cash!

Oh, one other thing: this offer is limited to the first 300 respondents, and only until **September 29, 2006**. After that... it's gone! So, size up all your friends and business colleagues today. They could be more valuable than you ever thought possible!

Point Out Suspects Online!

(web address)

I suspect this person could use Sage Software!

Pssst. Between you and me, I think this person would be an ideal user of Sage Accpac or Sage Pro products.

Name: _____

Title: _____

Company: _____
